Trustee Message

Mukesh Garg

Trustee

The year 2022-23 was a welcome year for us. After two long years of Covid-19 pandemic, we finally had a full year of continuous work. In all over India schools, colleges, markets, industries and training institutions opened by April 2022 and remained open for the entire year till March 2023.

We restarted our work in communities, schools and training centers but with a fresh perspective. We remembered what had worked well in these contexts before the COVID-19 pandemic.

But now we could add and integrate lessons learned during the last two years. For example, we have always believed that families and communities play a big role in children's & adolescents development. Both with children and youth, it is really during the COVID-19 pandemic when we could not rely on anyone else that we saw the full potential of family engagement and community partnerships.

Now, in our education programs, neighborhood groups for mothers of young children and youth volunteers working with elementary school children have become the essential backbone of our activities. Our youth training programs also initiated community-based efforts. Further, the pandemic taught us the importance of building and strengthening mechanisms by which we could reach children, youth and communities remotely. In 2022-23, digital content and delivery became a hallmark of all programs in addition to in-person teaching-learning interventions. In the sphere of youth training and skilling, our teams were able to build back and strengthen the process of mobilizing, training and placing young people into jobs. On-the-job training and community-based skilling efforts were also expanded.

In 2022-23, as a large PSF family, we bounced back - "back to school" and "back to work". This year has given us the conviction that it is possible to return from a difficult period, pick up the threads of the past, integrate lessons learned in tough times and move ahead stronger than before. We are immensely grateful to all those who stayed with us on this journey. Whether it is children or families, communities or schools, governments and partners, supporters in India and around the world. We could not have done it without you.

ABOUT US:-

The mission of PSF is to work with the urban poor to bring about long term and sustainable transformation to their quality of life.

Through a practical expression of the values of faith, hope and love, we aim to provide holistic community-based healthcare, empowerment, financial inclusion, education and environmental improvements by training, resourcing and encouraging the community to receive and enjoy their basic human rights. PSF also aims to influence the lives of its international audience by sharing local practice, experience and vision and facilitating partnerships where awareness and association between different cultures can impact and change individuals globally.

We Believe that

- ✔ All human beings are created by God and are of equal worth. Therefore, the poor have the same inherent dignity, and rights that deserve our protection. Every person has a right to affordable healthcare that will allow them the best possible chance of living.
- ✔ Every child has a right to an education that will give them the opportunity to reach their potential, earn a living and grow in self-esteem.
- ✔ Shelter, safe water and sanitation should be available to all, regardless of their background or status within society
- ✔ Women have equal rights to those of men, and those rights should be protected by both men and other women.

✔ Communities working together are capable of achieving great change and can influence others to also strive for change.

✔ The poor deserve the chance to improve their financial status and their quality of life, and to break free from the cycle of poverty

We Are Committed

✔ Working among the poor without discrimination of any kind such as that based on sex, caste, religion, language, race, colour or other status.

✔ Being at the forefront of the pursuit of justice and peace for the poor and dealing with the systems that make and keep poor people in poverty.

✔ Challenging oppressive social structures and responding to injustice through non-violence and active peace-making.

✔ Empowering the poor to lead full and meaningful lives, and building vibrant communities through the advance of love, neighborliness, forgiveness and reconciliation.

✔ Practicing a liberating generosity towards the poor and giving them the opportunities they deserve.

✔ Valuing diversity and the skills and gifts of each team member.

✔ Maintaining excellence in the quality of our programs.

✔ Exhibiting good stewardship of limited resources.

✔ Fostering effective partnerships with the government, funding agencies and other NGOs.

✔ Becoming a force for liberation and transformation of poor communities.

2022/2023

Helping hand for EDUCATION & SCHOOLS

We believe that an Education is the most effective way for individuals to improve their own lives because Education is the process to transfer learning, Knowledge, skills, values, beliefs, and habits from one person to another through storytelling, discussion, teaching, training, or research. A person becomes perfect with education as he is not only gaining something from it, but also contributing to the growth of a nation.

Education expands the vision, outlook and capability to fight ignorance, injustice, corruption, violence, disparity and communalism, the greatest hazards to the progress of the nation.

Education is not only important to reduce the poverty but it is also a key of healthy & respectful living. The miserable conditions of poverty & other social causes can only be fought if we educate the downtrodden.

From 2011 till March-2023, PSF closely worked for education & school to downtrodden, migrated families through initiating various projects as like:-

Our Path To Progress:

Delhi & NCR having large number of migrant families who came to metro cities in search of livelihood chances and shelter for their families. Most of the men are employed in cities as daily wage workers at industries, local markets, wholesale markets & house helpers. They earn Rs 250/300 per day to take care of their families.

The worst sufferers from these families are children. They enrolled in school but poverty, hunger and sickness effects their study every day. Due to living under unhygienic conditions most of the time they fall sick with skin infections, malaria, fever, stomach infections etc. This left them behind in education than other students. To support migrant family students PSF opened educational centers at different locations of Delhi & NCR and providing free coaching classes with basic computer knowledge. Awareness sessions for hygiene & sanitation, Personal Safety also conduct on regular basis at the center.

About 3500 children from migrated families get support for pre-primary education, coaching classes at Maharashtra, Chennai & Delhi during the period April-2011 to March-2023

Preparing For School: -

Early childhood is a crucial stage of life in terms of a child's physical, intellectual, emotional and social development. Growth of mental and physical abilities progress at an astounding rate and a very high proportion of learning take place from birth to age six. It is a time when children particularly need high quality personal care and learning experiences. According to a study, more than 30% of educational funds are allocated towards higher education, leaving the Primary Education in sway.

With this in mind, PSF working to provide positive early learning to children from 3 to up to 5 years old through Pre-Primary School by the name Amrit Varsha School, Vasundhara Ghaziabad. School is helping in building their intellectual, social and emotional development which is laying the foundation of their later school success.

The project was started in 2015 and till March-2023 about 1500 children get pre-primary education with mid-day meal & stationery for strong foundations of their educational journey

Energizing Education: –

Until recently, students required stationery which was basically the pens, paper, notebooks, diaries, envelopes and other office supplies. Earlier, it was limited to all the standard supplies only but nowadays, times have changed. Stationery has been transformed into something beautiful and unique. Designed in a way that can attract children and give them a sense of belonging. This modernization has made stationery items expensive. Due to which poor students who are unable to buy them get depressed which impact their studies.

Being a grassroots organization PSF understand this emotional concern of poor students and launch this program with aim to provide all the essential requirements as like:- School Dress , Stationery, Lunch box, Water bottle, School bag, Books & Notebooks etc to poor students learning at various Govt. Affiliated Schools in Delhi & NCR. This projects started in April-2013 & till March-2023 about 1, 80,000 children get benefit of this initiative.

Child AID:-

PSF is dedicated in to providing opportunity for poor students around the India through educational scholarships. We always gave preference to support deserving children for their education in every manner weather it is for school fee or learning material. We also sponsor different School running at slums for required items to facilitate the students in proper manner.

PSF worked as pipeline in between donor & the students. We verify the financial & educational status of students & appeal to donors to adopt the child to support for school fee as per their convenience directly to school or through PSF if the donor required Tax Receipt under 80G. We are thankful to our 800 Donor who attached with us and from April-2016 to March-2023 continuously supporting education of 1300 children through us.

Health & Survival Programs

The development of Health & Survival initiatives focused on the following objectives:

- ✔ To facilitate and promote Health Awareness of Child & Mother amongst the population resides in Slums
- ✔ To provide medical assistance for primary health services to children, pregnant ladies, lactating ladies and senior citizens through Indradhanush Charitable Dispensary.
- ✔ To impart Personal Hygiene amongst school-going girls
- ✔ To provide Vitamin A supplement & De-worming Medicine to Children from age group of 6 Months to 12 years
- ✔ To Support poor children for financial assistance of Heart Surgeries
- ✔ Support poor girls suffering with Early puberty Disorder

Heart Energize Program

Pregnancy and childbirth are the leading causes of death, disease and disability among women of reproductive age in urban rural population. Lack of medical facilities, incomplete supplementation of iron and folic acid, bad environmental conditions and lack of access to regular check-ups increases the infection risk in infants before birth.

Congenital heart defects are the most common infection causes among the infants due to poor prenatal health services and bad environmental surroundings. Congenital heart defects can disrupt the normal flow of blood through the heart. The defect may cause the blood flow to slow down, go in the wrong direction, go to the wrong place, or it may block the flow completely. Existence of these defects are mainly found in urban rural population where ladies live with bad environmental resources like close to factories, disposal areas around the railway lines or at industrial areas.

PSF is working from 2011 to save the lives of poor children suffering with congenital heart defects and came from all over India to treat their children at Govt. Hospitals. From 2011, about 224 children get benefit from Heart Energize Program. From April-2022 to March-2023 PSF has supported 5 children and all are living healthy and joyful childhood

Health for all

HEALTH for ALL:- Parivartan Sandesh Foundation (PSF) provides an absolute caring approach by delivering extensive primary health care services to the most dispossessed and impoverished communities who doesn't have a stable living and their socio-economic conditions doesn't allow them to have a proper access to a regular medical provider. Our Mobile health care dispensary reaches the most poverty-stricken slums of Delhi, aiming to offer a continuous care to the patients.

Vision is to invest in health care to promote social well-being among entire population irrespective of their social and economic backgrounds with our continuous efforts to expand our social coverage in areas where the need is the most and therefore, leading to the equitable and inclusive participation of all the community members in the overall growth and development of self and the nation.

Pregnancy and childbirth are the leading causes of death, disease and disability among women of reproductive age in urban rural population. Lack of medical facilities, incomplete supplementation of iron and folic acid, bad environmental conditions and lack of access to regular check-ups increases the infection risk in infants before birth.

PSF unites with INDRADHANUSH CHARITABLE DISPENSARY at Nyaykhand-3, Indirapuram, Ghaziabad, U.P, to provide complete primary health care needs to indigent population at all stages of life from infant to senior age with a prime focus on infants, children, pregnant women & senior citizen's health care by facilitating free check-up & medicines under supervision of a MBBS Doctor. Along with Primary health needs this project provide free of cost medicines for Diabetes & B.P to about 1200 senior citizens every month and about 300 patients get assistance for primary health check-ups.

Also this dispensary provide essential medicines which are needed for prenatal & postnatal health of mother & proper growth of child. Children gets free 3 doses of Hepatitis-B Vaccinations as per medical guidelines. Till March-2023 about 10200 poor children get free vaccination of Hepatitis B.

Awareness Program

PSF strongly believes that social and behavior change interventions can positively influence in promoting the adoption of healthy behaviors and practices. Communities, families, and healthcare workers armed with the right skills and information can maximize access to preventive health actions, lifesaving commodities and high-quality, good-quality health services. Through social and behavior change activities, we aim to raise awareness, reduce misinformation, and address the barriers that prevent individuals, families, and communities from practicing lifesaving behaviors to improve health outcomes.

Our small scale grassroots level health awareness programs can improve health outcomes in a wide range of areas through community education and applied research. We are committed to preventive healthcare, ending preventable child and maternal deaths, promote intake of nutritious food, and protecting communities from infectious diseases. The social determinants like knowledge, attitudes, social and cultural norms, and behaviors too play an important role in health at the individual, family, and community levels. These social and behavior change interventions, complement and enhance the role played by accessible public health services, such as counseling, testing, and treatment; provision of antenatal care; or provision of family planning services. Under this program PSF reach about 175000 people to spread the knowledge of health awareness

सक्षमनारी, सशक्तसमाज

Poverty is widely understood as the condition of living on an income below a certain minimum threshold. Individual countries generally have their own poverty lines, based on a basket of 'essential' goods, including the cost in that country of obtaining 2100 calories, a minimum for healthy functioning. Poverty also relates, however, to other deprivations such as poor health, lack of education, vulnerability, exposure to risk and powerlessness. The main cause that could be identified behind this problem is the high rate of unemployment and lack of job opportunities for poor and one best initiative to unemployment is to provide the unemployed with more skills through training and capacity building.

Skills development can play an important role in reducing poverty. Skills, from basic skills such as literacy and numeric, to vocational skills which equip individuals for practical work, to high level research and development skills, can all contribute to lifting individuals out of poverty by improving access to work and productivity and fostering national economic growth.

High rate of growth of urban population and consequent increase in population residing in slums has today lead to over-straining of infrastructure and deterioration in a chance for employment and wide inequalities in accessing services. Such hostile circumstances coupled with the lack of social network and fall back options, arguably leads the inhabitant population to the "severe poverty trap".

The situation where a family is not sufficient enough to earn its bread and fulfill their key requirements, the role of vocational training comes into place which assures in delivering training to the women members of the family, making them skilled to be self dependent and act as a helping hand in support of the family financially too. This further contributes to gender equality where women equally stands by her family just as a male member and becomes much more confident and motivated.

In modern years, the women empowerment has been gradually increasing with the help of various government schemes and social organization, Similarly PSF is also playing a key role for the upliftment of women in through vocational skills development.

Under project सक्षमनारी,सशक्तसमाज, PSF empower poor girls & women with Tailoring Skills. The objectives of this program are to alleviate poverty, increase sustainability, reduce vulnerability, and improve capacity building and overall development of the women members leading to the holistic empowerment of women. From April-2015 to March-2023 about 889 girls get benefit of this project and now are playing an important role in wellness of their families with respect.

Spreading Dignity

When we walked the streets of the slum while any of our project or event being organized there, we saw the live paintings of real India in its rawest form; where a low-income family thrives with five kids; where a TV is a higher priority than computers (for kids); where boy has the first priority of latest mobile phones, bike or accessories are higher priority than education and to fulfill their wishes the boys are mostly get involved in anti-social elements, putting boundaries on their sisters. Where the girls are borne out of series of unplanned pregnancies in want of a boy-child, and are brought up as a burden of a fathers with an endless list of daily expenditures without having any fixed resource of income.

The youth living in poverty easily get involved in crime which can explained through a variety of reasons. Poverty can lead to high levels of stress that in turn may lead individuals to commit theft, robbery, or other violent acts. Moreover, poverty may lead to an actual or perceived inferior education, which would cause youth to count on less access to quality schools, jobs, and role models, decreasing the opportunity costs of crime and increasing the probability of youth spending time on the street associating with gangs.

Crime offers a way in which impoverished people can obtain material goods that they cannot attain through legitimate means. Often threat or force can help them acquire even more goods, this induces them to commit violent acts such as robbery, which is the second most common violent crime. For many impoverished people, the prize that crime yields may outweigh the risk of being caught, especially given that their opportunity cost is lower than that of a wealthier person. Thus, poverty should increase crime rates.

The only way to tackle with this situation is to focus on Skills Development of uneducated people so they must have resource to generate income for their family survival. Understanding the need of skills development, PSF providing Communication Skills Development Course & Basic Computer Skills course to poor & less educated boys & girls at PSF center under project Spreading Dignity. From April-2015 to March-2023 PSF had reached about 1674 beneficiaries under this project and most of them obtained employment in those fields.

THANKS NOTE

DEAR HAMDARD INTERNATIONAL FOUNDATION

Time and again, you've demonstrated your unwavering commitment to PSF. From all of us here, we wanted to extend a heartfelt thank you for your continued dedication over the years. Your steadfast support has been instrumental in achieving our mission of protecting under-privileged people from bone frozen winters by distributing Blankets. Under this drive every year we organized small events at various locations of Delhi & NCR slums from December to January. Your support has to about 3500 people through this initiative.

The long-term impact you've made cannot be overstated. To highlight just one of countless instances: Your Recent Support in March-2023 has supported about 28000 poor girls & women with free of cost Sanitary Napkins to protect from various infections due to poor sanitation methods during periods.

Most of these people were daily wages labor can merely arrange enough bread butter for family and dependent on support of the government policies or private institutions for their essential resources for Health & Survival.

Your continued trust and partnership with PSF help sustain our endeavors, and for that, we are eternally grateful.

Once again, thank you for your enduring belief in our mission. With supporters like you by our side, we remain confident and motivated in our journey toward bringing positive changes into lives of needy people

DEAR ADMITAD MEDIA PVT LTD.

We are thrilled to welcome you to the PSF community! From all of us here, a heartfelt thank you for your generous donation. As a first-time donor, your support signals a shared commitment to support poor communities.

Your contribution is already making a difference. Under PSF initiative **BACK to EDUCATION** About 5000 kids gets Digital Notepad for education. Which not only support children also reduce the use of paper and save environment.

Under project **PSF-SAKHI**, 18000 poor girls and women get 6 months' supply of free of cost sanitary napkins to promote Sanitation and Hygiene habits among slums population and protect them from various Urinary infections.

It's moments like these – made possible by your generosity – that drive us to continue our work every day.

Once again, thank you for choosing to support PSF. Together, we can change the world of someone who desperately waiting for our help.

With deepest gratitude,

DEAR BEAT & LIGHT PVT LTD

Thank you for your regular donation to PSF! We're so grateful that you've chosen to support us and our mission PSF- SAKHI. With generous donations like yours, we're able to continue working towards saving poor females from various diseases happens due to use of poor sanitation methods during periods by providing free of cost sanitary napkins,

We are very grateful to Mr. Sanjay to allow us to operate sanitary napkin distribution center at his premises in industrial area. From this center every month about 350 females gets free of cost sanitary napkins who work as daily wages labor in various factories.

Your donation and generosity toward supporting needy people. We deeply appreciate your commitment to helping PSF, and to stay in touch with us for progress of PSF-SAKHI Initiative. Thank you for supporting PSF—we truly wouldn't be able to make the change we want without help from donors like you.
